EXPERIENCE

Mavericks in Motion Inc — UX Design Intern

Jun 2025 - Aug 2025, Seoul, Korea

A wellness startup building a B2C mobile app that empowers users to build mindful routines through community-driven experiences.

- As a **founding UX designer of ROL**, led **end-to-end UX design** for a wellness mobile app, from research and ideation to prototyping and usability testing, to help users organize daily routines and build sustainable habit.
- Designed and delivered **10+ interactive prototypes**, including login flows, AI interaction screens, and payment pages.
- Reduced **usability errors by 45%** through iterative QA testing, while coordinating cross-functionally with front-end and back-end developers.
- Ideated and **designed an AI conversational interface** that allows users to interact with AI and receive personalized daily plans.
- Built an **early-stage design system** to ensure visual and interaction consistency, improving designer-developer communication

Telechips — Digital Marketing Intern

Jul 2024 - Aug 2024, Seoul, Korea

Fabless B2B semiconductor company headquartered in Seoul, South Korea, that designs integrated circuits.

- Conducted market research to identify key differentiators of TOPST, the company's Single Board Computer (SBC), and designed marketing collateral that highlighted its competitive strengths.
- Represented TOPST at the **IEEE CASS Conference**, increasing brand exposure and contributing to \$500 in single-day sales.

Overleaf — UX Designer

Jun 2025 - Sep 2025, Seattle, Washington

Collaborative web-based LaTeX editor for creating, editing, and sharing academic document.

- **Boosted user satisfaction rate by 65%** and **reduced task completion time by 45%** through the introduction of an AI-powered Task Board that converts chat discussions into actionable tasks.
- **Improved perceived ease of use by 68%** through a restructured user flow that simplifies error identification and streamlines the suggestion process.
- Conducted 6+ user interviews and identified major pain points, including scattered suggestion flow, unclear collaboration, and repetitive citation input to redesign Overleaf.

Duo Mobile — UX Designer

Sep 2024 - Nov 2024, Los Angeles, California

Two-factor authentication (2FA) platform that keeps personal data secure.

- Conducted **comprehensive UX research** (qualitative interviews, surveys, usability studies) to identify major pain points and measure overall usability and enhanced user security and accessibility.
- Delivered a **44.8% increase in user satisfaction** and a **21.1% improvement in perceived ease of use** by redesigning the mobile app interface and providing users with a new web dashboard to enhance the user experience of multi-factor authentication.
